STANLEY THEATRE – ARTS CLUB

TOUCHSTONE THEATRE AT THE FIREHALL

VANCOUVER PLAYHOUSE

Kickstart Disability Arts and Culture

has been a leader in producing and presenting works by artists with disabilities for over 10 years.

EarSighted is the culmination of two years of development, and the training of a team of describers under the direction of international expert, **Deborah Lewis**. Audio description uses wireless headset technology to make theatre performances, opera, museum exhibits and other cultural events more available to blind and partially sighted audience members.

Kickstart is proud to be collaborating with Metro Vancouver's finest theatres, to build new audiences by offering an ambitious schedule of performances that are more accessible.

EarSighted's inaugural theatre season has everything a theatre lover could ask for!

**Canada's first full season
of audio description
for live theatre!**

EarSIGHTED))) Live Audio Description

brings the **sets, lighting, costumes and action** of a theatre performance alive for **blind and partially sighted** audience members.
